The background features several 3D models of COVID-19 virus particles, which are spherical with a greyish-blue base and covered in red and yellow spike proteins. A white syringe with a green plunger and a needle is positioned horizontally in the upper right quadrant. The needle is pointing towards the left, towards a large, semi-transparent white circle that contains text.

Corona Recover

- 50+ skoler opstartet på Teams
- 500+ undervisere og lærere trænet
- UMS tilpasset for mange kunder til at passe til ny virkelighed

Corona Reimagine

Tid til nye løsninger

- Studi.ly
- Substy – Vikarlæggeren
- UMS Pro
- Project “Legopladen”
- Carelink Covid19 testløsning

inLogic Mission / Vision

VORES MISSION

inLogic arbejder globalt med at udvikle og levere de mest innovative, funktionelle og intuitive skole-it-systemer, så vores kunder kan koncentrere sig om at uddanne mennesker

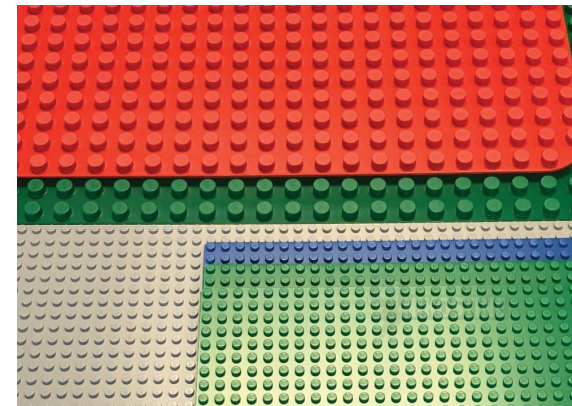

VORES VISION

Det er inLogics vision inden 2023 at være kendt som den mest innovative, betroede og servicemindedede partner indenfor cloudbaserede skole-it-systemer på mindst to internationale markeder

Studi.ly improves the assignment, homework and study plan process of school.

Studi.ly is a user-friendly Microsoft Teams App that improves the assignment, homework and study plan process, so schools can focus on educating students of the future. You can create a studyplan and attach a curriculum for each class. After that the planning of homework and assignments are easy. Receive the handins and give the students feedback and grades. Everything you need so you can focus on educating the students.

By using Studi.ly, you agree to the [privacy policy](#) and [terms of use](#).

Vikarplanlægning

Substy

Hvad er Substy?

Nuværende produkter:

- Vikarlæggeren (inLogic)
 - Vikarland (MentorDanmark)
 - Vikarhylden (Gyldendal)
 - Vikarskolen (MentorDanmark)
-
- Udgave til Ungdomsuddannelser
forventet start 2022

Funktionalitet i Vikarlæggeren

- Planlægning.
- Overblik
- Flexibilitet
- Tilknyttet Mobilapp til Vikarer
- Undgå dyre mellemtimer
- Fremtidsdækning
- Nemt for vikaren

Algoritmen

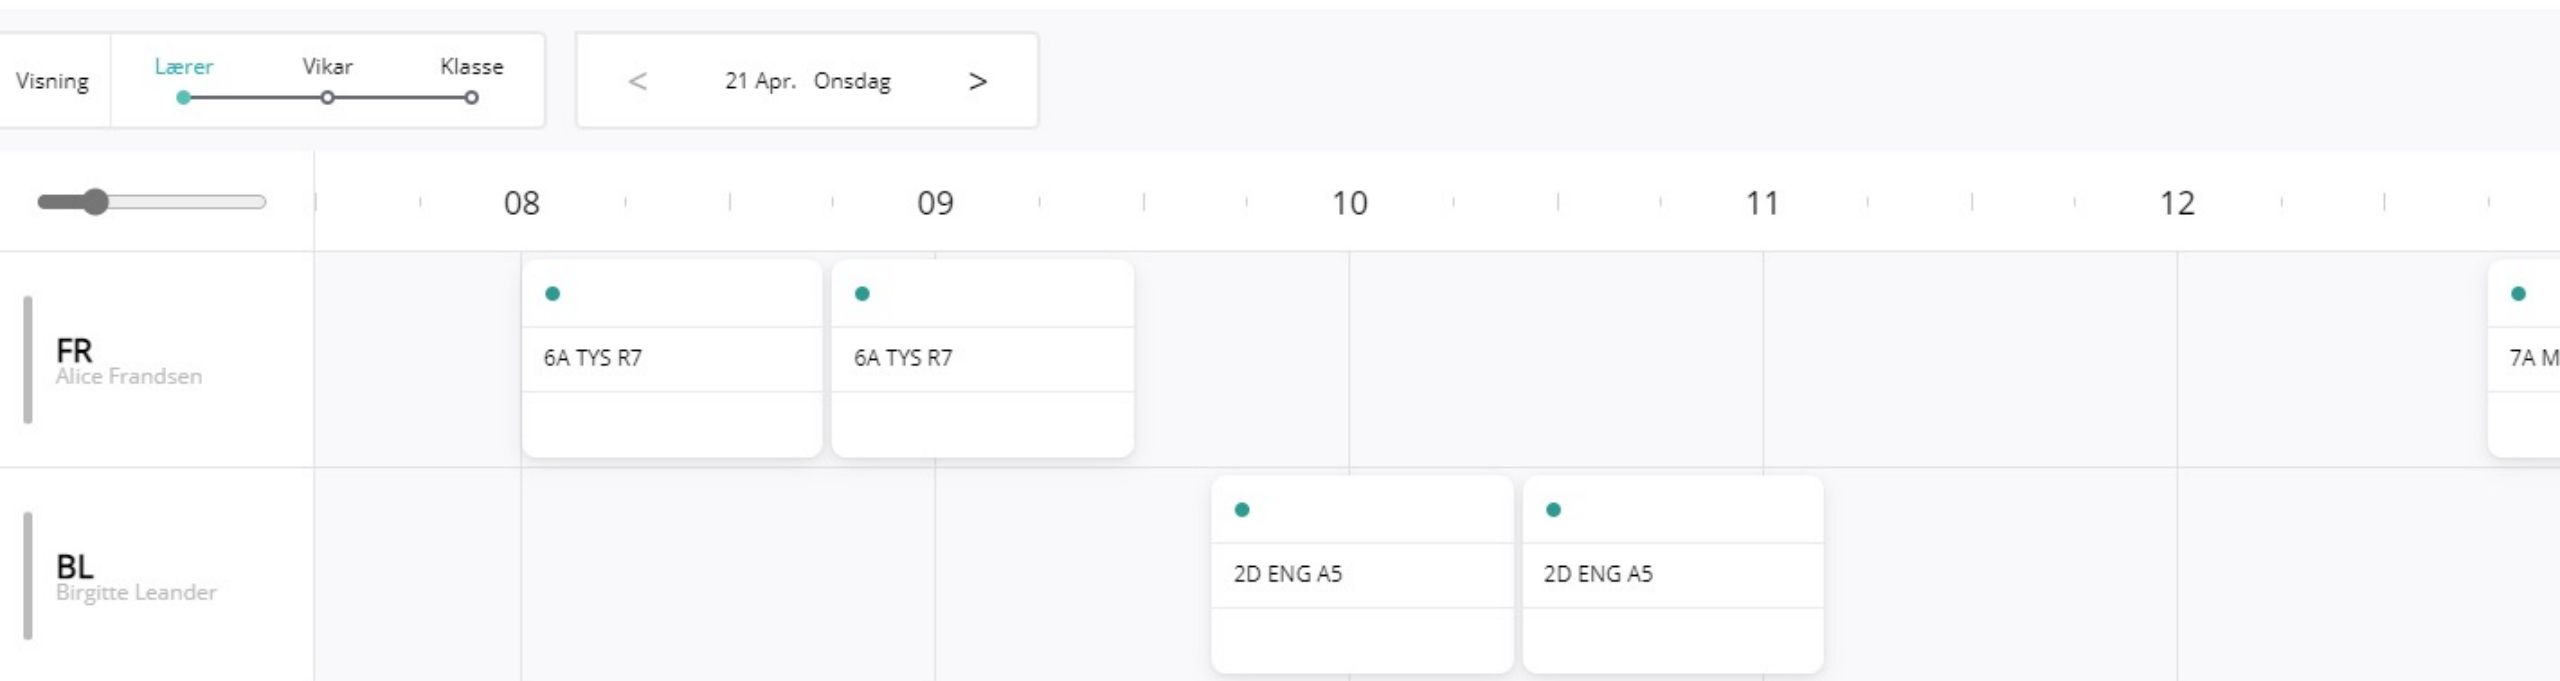

Vis udkast

Send til vikarer

SMS til fast personale

Folkeskoler – Samarbejde

- Bruges i 16 kommuner. Bl.a. Århus og Kbh
- Anmod/Godkend fravær i Aula
- Effektiv kommunikation med skolernes vikarer
- Samarbejde med både KMD og IST
- Vikarlæggeren Pro – Indlejret i Tabulex

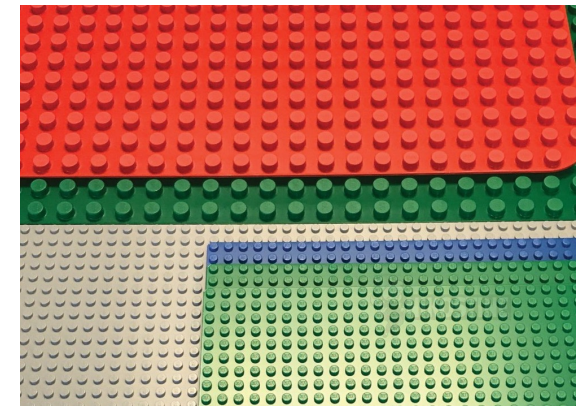

Pilotskoler søges

- Vikarlægger til ungdomsuddannelser
- Samarbejde om funktionalitet
- Sikrer at din skole kan bruge Vikarlæggeren

UMS Pro

UMS Pro Roadmap

UMS Pro

- IDM system for medarbejdere
- Oprettelse og administration af personale
- Hjælper med ledelses-audit
- Multi-tenant SaaS løsning
- Sender administrativt personale til UMS

“Legopladen”

“Legopladen” Vision & Mission

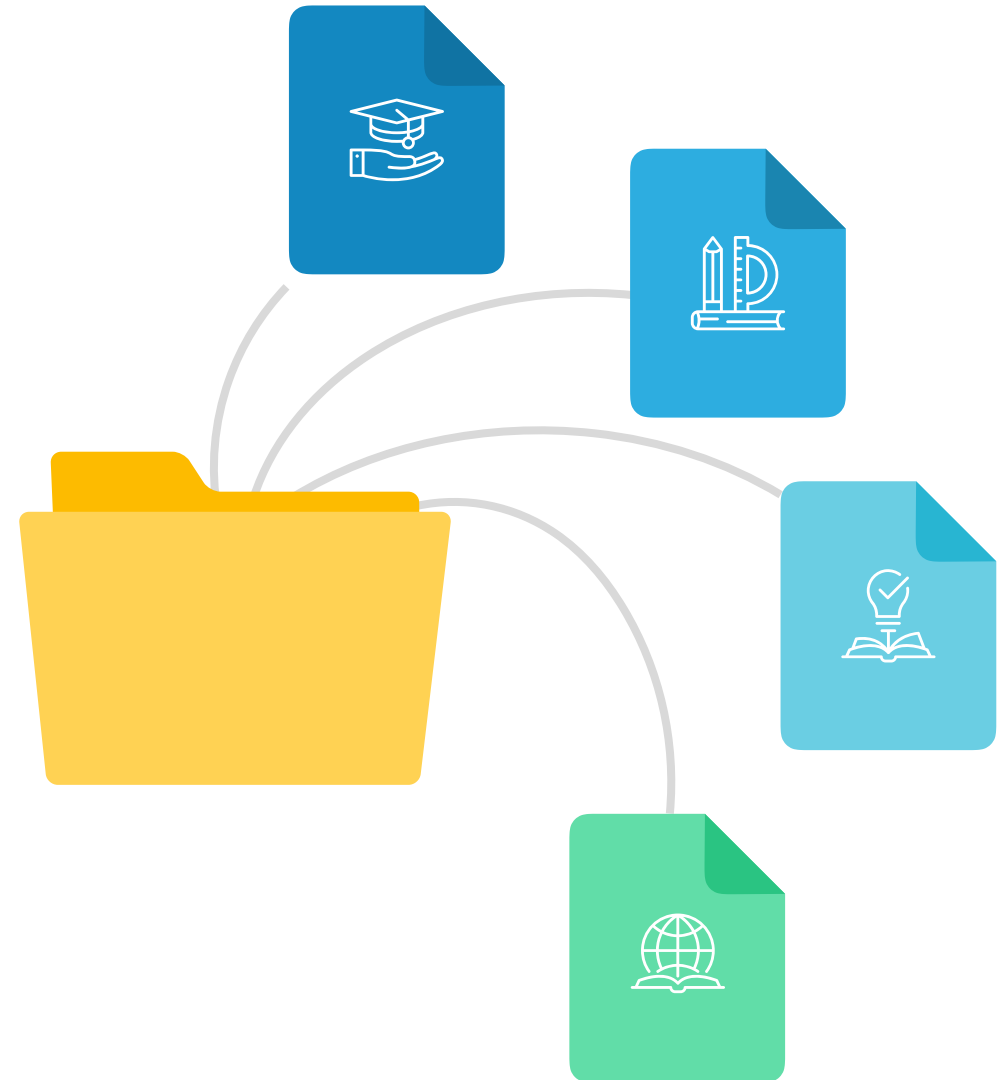

Hvorfor LegoPladen

Hvad får du?

23

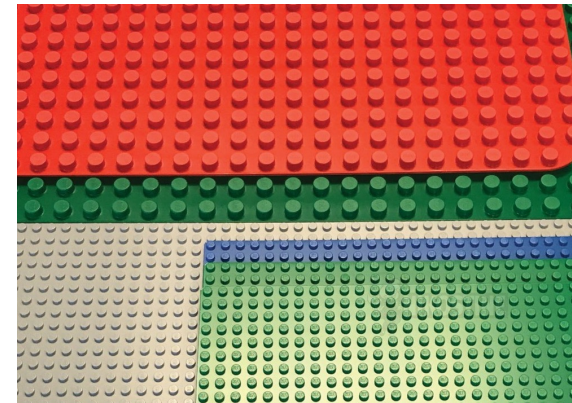

◆ Project LegoPlade

“An affordable and customizable SaaS data integration data platform that makes the data available where needed, so the schools can focus on teaching the students of tomorrow”

Project "Legoplade"

- Fremtidens datastore i skyen
- Moduler vs. connectors
- Privacy by Design
- GDPR Compliant
- Webconfigurator
- Let overblik over dataflow inkl. fejl.
- Compliant med MS Edu data platform

TODAY

LAST 7 DAYS

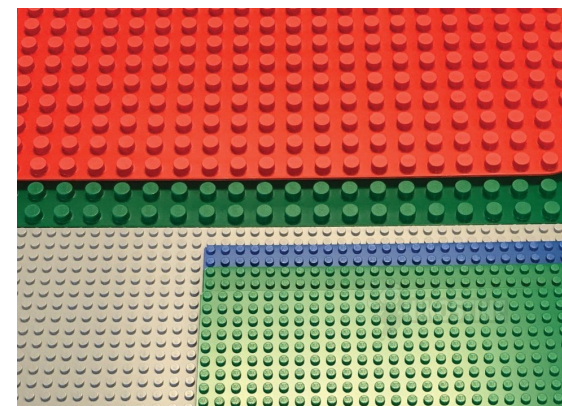

ACTIVE TESTERS

INNOVATION & BOBLERE

Vi er slet ikke færdige

Custom udvikling

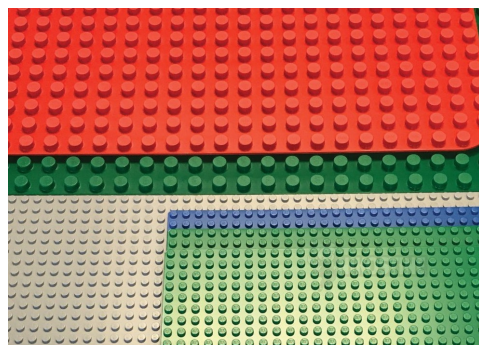

- Skalerbart udviklingshus.
- Kunde – Projekter
- Innovative løsninger baseret på erfaring
- Både små og store projekter
- Baseret på inLogic Product Framework

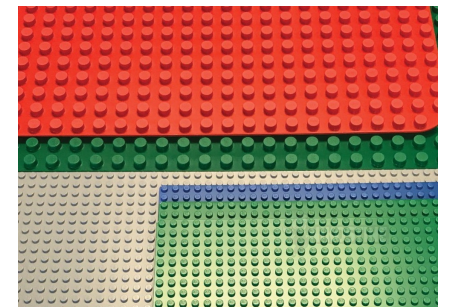

inLogic Product Framework

Et framework der sikrer en uniform og strømlinet "from cradle to grave"
produkt udvikling, support og drift.

Product Framework

- Product Management Standard
- Development Standard Flow
- Core Technical Standards
- Support Standard
- Operations & Monitoring Standard
- Product Development Design Guidelines
- Standard Admin Portal
- Compliance Standards (incl. GDPR)
- Common Component Bibliotek
